DE-FOAM

EMULSION CONCENTRATE

A Defoaming Agent for Steam Type Carpet Cleaning Machines or Wet/Dry Vacs

DESCRIPTION

DE-FOAM halts the buildup of foam in the recovery tank of a carpet extraction machine, all steam type carpet cleaning equipment and in wet/dry vacs. This de-foaming action greatly increases the pick-up capacity of listed equipment. **DE-FOAM** can also be used in automatic scrubbers in the return tank to cut down on suds. Always shake well before using.

DIRECTIONS

Add one to two capfuls of **DE-FOAM** to the recovery tank. **DE-FOAM** is very concentrated. Use sparingly.

If foaming action is severe, add one to two capfuls of **DE-FOAM** to five gallons of cold water and pre-spray carpet before using the extraction equipment.

Shake well before using.
